

Independence Plan for a Student with a 1:1 Paraeducator

www.patrickmulick.com

Student Name:

Grade:

School:

Date:

1. What is the intent of the assigned 1:1 paraeducator as described in the adverse impact statement of the IEP?
2. In what ways has the student demonstrated greater independence in the past year?
3. What skills, when developed, will indicate that the student is performing at their highest level of independence?
4. What specially designed instruction is the student currently receiving to help advance those skills and how is it being delivered?
5. What next steps can the staff take to support the student in becoming more independent?
6. How soon do you estimate that those skills will have advanced enough that the student will need less paraeducator time in their IEP?

__ within the year

__1-2 years

__2-3 years

__3-4 years

__4+years

Paraeducator Role Rubric

Fill out the table below that specifies the role of the paraeducator. Indicate "N/A" for times that do not apply.

Time of Day, Activity, or Class Period	What can the student do independently and does not need additional help with?	In what ways will the classroom teacher assist the student and in what ways will the paraeducator assist the student?	Beyond the direct assistance of an adult, what supports can be used to help advance the skills of the student and build their independence? (for example, a visual schedule, voice scale, break card, timer, eye gaze device, switch, etc.)	What work can the paraeducator do when their targeted student is not in need of support?
General Education Setting:		Teachers assists by: Paraeducator assists by:		
Special Education Setting:		Teachers assists by: Paraeducator assists by:		
Transitions:		Paraeducator Assists by:		
Lunch/Recess:		Paraeducator Assists by:
